DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11 and 15-17, drawn to an isolated nucleic acid molecule encoding a polypeptide having glyphosate resistance activity, a vector and a host cell comprising said nucleic acid molecule and methods of making transgenic plants and plant cells comprising said nucleic acid molecule, classified in class 800, subclass 300, for example.
 - II. Claims 12-14, drawn to an isolated polypeptide having glyphosate resistance activity and a method of making said polypeptide, classified in class 435, subclass 232, for example.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because the isolated nucleic acid of Group I is structurally, functionally and compositionally distinct from the isolated polypeptide of Group II.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter, and because the search required for one of the

groups is not required for another, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR § 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17(i).
